WARNER'S SAFE REMEDIES

WARNER'S SAFE PILLS

Are an immediate and active stimulus for a Torpid Liver, and cure Costiveness, Dyspepsia, Biliousness, Billious Diarrhœa, Malaria, Fever and Ague, and should be used whenever the bowels do not operate freely and regularly.

Their action is gentler than that of other pills, and at the same time more effective. No other pills require such small doses for thorough work.

They have been used with great success in the English army where Malaria prevails, and are the best antidote for all kinds of Malarial Poison.

People who live or work in unhealthy places, and those of sedentary habits, should use them. Taken at bed-time, they promote rest and bring on natural evacuations the next forenoon.

They do not act directly on the bowels, but indirectly through the liver, by causing it to secrete the necessary bile, and should always be preferred to pills which operate as a violent cathartic, causing nausea and weakness.

Price, 25 cents a Box.

WARNER'S SAFE NERVINE

Quickly gives Rest and Sleep to the suffering, cures Headache and Neuralgia, prevents Epileptic Fits, and relieves Nervous Prostration brought on by excessive drink, over-work, mental shocks and other causes.

Powerful as it is to stop pain and soothe disturbed nerves, it never injures the system, whether taken in small or large doses.

It often arrests the progress of serious diseases by the recuperative rest which it produces, and is beneficial in all painful diseases.

Warner's Safe Nervine is the improved discovery of the most skillful nerve doctor of the world, and an inestimable blessing to all who suffer. Bottles of two sizes: prices, 50 cts. and $1.00.

SAFE KIDNEY & LIVER CURE
SAFE DIABETES CURE
SAFE BITTERS
SAFE NERVINE
SAFE PILLS
READ: Save Thyself

Warner's Safe Kidney and Liver Cure, Safe Diabetes Cure, Safe Bitters and Safe Tonic are also superior remedies, unequalled in their respective fields of disease.

Warner's Safe Remedies are sold by Druggists and Medicine Dealers generally throughout the country. Send for Pamphlet and Testimonials.

Come ye citizens and strangers,
Miners, sailors and Western rangers,
Listen to the truthful story,
Of Frank Campbell of Victoria.
He in truthful words will tell you
Just the goods he has to sell you.
Mind ye now he isn't joking,
If you are fond of chewing and smoking,
Or if you are given to snuffing,
What he keeps does not need puffing.
He has brands will suit you really,
Tobacco users prize them dearly;
From all parts of the "Old Dominion"
He has stock, and his opinion
Is that none can suit you better
They will please you to the letter.
His Cigars, just from 'Havana,'
Smoke in the most lovely manner;
Meerschaum pipes of style and fashion
Just to suit each taste and passion;
And it is in Canada stated,
His Tobaccos are celebrated;
Green Seal, Straight Cut, all go,
Big Lick, Big Cut, Wind Sap, also
All the Fine Cut Brands for chewing
That your teeth will never ruin;
Pipes to suit the inveterate smoker
Cards for playing sinch or poker,
Pipes of briar and stems of cherry
More than any man can carry;
It would take a week to tell you
All the things he has to sell you.
While in town you may be stopping
At the "Adelphi Corner" drop in;
Campbell you'll find at that location
Ready to give you information,
Or to see you well provided,
With what is by all decided,
The smoker's and the chewer's glory
The best and cheapest in Victoria.

STOCKS AND MINES.

ENTERPRISE GOLD AND SILVER MINING COMPANY (LIMITED.)

NOTICE IS HEREBY GIVEN, THAT AT A meeting of the Directors of the above Company held this day, the ninth assessment of 20 cents per share was levied on the capital stock of the company and is payable forthwith to the Secretary, at the Company's office, Langley street, Victoria and after the 7th day of July next the same will be delinquent.

W. POLLARD, Secretary.

Victoria, B.C., 7th June, 1880. je8

TO THE SHAREHOLDERS OF THE

QUESNELLE QUARTZ MINING COMPANY (LIMITED.)

THE DIRECTORS OF THE QUESNELLE QUARTZ Mining Company at the end of their term of office submit the following report for your consideration:—

During the mining season of 1879 a shaft was sunk on No. 2 location to a depth of 114 feet from the surface, the size of the shaft being 7 ft. by 3½ ft. in the clear. The shaft runs through rock which had to be blasted the entire distance; it has been thoroughly timbered throughout and is secure and commodious.

At 100 ft. from the surface a cross-drive 5 ft. by 3½ ft. in the clear was run. At a distance of 33 ft. from the shaft it cut into a body of quartz, on which a level was run 20 ft. The quartz extracted was found to be much broken and mixed with bedrock, doubtless caused by the movement of the country rock which has apparently broken and disintegrated the vein at that level.

A 5-stamp quartz mill has been purchased and erected, the cost of which was greatly enhanced by the unavoidable expense and difficulty attached to moving heavy machinery for a distance of 30 miles through a rough country where no roads or trails existed.

Forty tons of quartz were worked in the mill producing 108 ounces of bullion, which sold for $1256 67.

Good and substantial buildings have been erected over all the works.

The directors are of opinion that it is advisable to sink the shaft at least 200 ft. deeper before running any cross-drifts. To accomplish this it will be necessary to place steam power on the mine; they therefore recommend that the funds of the Company be first devoted to that purpose and that arrangements be made for the purchase of engine and pumps of the requisite capacity and to place them on the ground with as little delay as possible.

The improvements made by the Dominion Government in the Cottonwood Canon will enable boats capable of carrying machinery to reach a point within 9 miles of the mine; a road thence to the mine could be constructed, which would enable machinery to be placed on the ground at a reasonable cost.

The accounts of the Company have been carefully audited; an abstract thereof is herewith given:

Dr. CAPITAL ACCOUNT.	
To sundry shareholders for 600,000 shares at $1 each	$600,000 00
	$600,000 00
Cr.	
By assessment acct. amount called up	$ 31,440 08
By balance, capital subject to call	568,360 00
	$600,000 00
Dr. ASSESSMENT ACCOUNT.	
To capital acct., amount called up	$ 31,440 00
	$ 31,440 00
Cr.	
By Cash acct., amount of assts. collected	$ 31,167 64
By balance, delinquent on 51,774 shares bought in by Company	272 36
	$ 31,440 00
Dr. CASH ACCOUNT.	
To assessment acct	$ 31,167 64
To bullion acct	1,256 67
To Sundries	191 70
	$ 32,616 01
Cr.	
By property acct., purchase of locations	$ 745 15
By mine acct., labor, material, &c	18,171 54
By mill acct., cost, freights, erection, &c	13,098 01
By balance, cash on hand	601 31
	$ 32,616 01
Dr. BALANCE.	
To liabilities in debts due by the company nil	$
Cr.	
By assets—5 locations valued at	$ 745 15
5-stamp mill & appurtenances	7,000 00
Buildings, mining tools and material	2,000 00
Cash on hand	601 31
	$ 10,346 46

From the foregoing it will be seen that there are debts or liabilities owing by the company.

The property of the company is estimated at $10,346 46, a value that would not exceed the cost of replacing it under favorable circumstances.

Since work was suspended last fall everything at the mine has been under the charge of a caretaker at an expense of $75, the only other expense incurred during the last winter being those necessary for advertising, etc, the secretary having performed the duties of his office without remuneration. Neither the auditors nor directors are or were under pay at any time.

JAS. REID, President.
R. J. SKINNER, Secty.

Quesnelle, B.C., 3rd May, 1880.

I hereby certify that I have examined the accounts of the Quesnelle Quartz Mining Company, Limited, and that the foregoing is a true and fair abstract thereof.

M. M. HAGARTY, Auditor.

WEDNESDAY MORNING, JUNE 9TH, 1880.

THE REPUBLICAN NOMINATION.

GARFIELD, one of the weakest, numerically speaking, of all whose names were presented to the convention, yesterday received the republican nomination for president at Chicago. GRANT'S friends clung to him to the last; but their efforts were fruitless. Although the strongest candidate before the nomination a combination of opposing interests, and the determined stand which the American people had taken against the third-term candidate, caused his defeat. BLAINE, decidedly the ablest statesman in America, was shelved by the nomination of HAYES in 1876; and his failure to secure the nomination yesterday will probably so dispirit his friends that he will not again be put forward.

The successful nominee was a general of volunteers during the civil war. He hails from Ohio, which state he represents in the U. S. Senate. He is a lawyer by profession, a forcible and ready speaker; but not much given to personal polemics. His record is clean, and as was said when HAYES became the choice of the convention four years ago—the nomination is eminently respectable. The defeat of GRANT will be gratifying to all lovers of republican institutions, which would have been seriously compromised by his return for a third term. Corruption was rife during his administration, and the Southern States were kept in a constant state of agitation. There is a growing feeling in the United States against the election of military presidents, and had GRANT been nominated it is feared that his policy would have been one of aggression towards nations with which the United States is now at peace.

A RETALIATORY POLICY.

TO THE EDITOR OF THE COLONIST.—SIR.—Is it true what I hear, that the people of New Westminster have sent back your paper because of your fearless advocacy of a direct line to Yale? I have taken both the New Westminster papers for several years; and have advertised occasionally, but if the people on the lower Fraser are trying to muzzle you I shall drop their organs instantly, and get all my friends to do likewise. Turn about is fair play, and wishing you every success in your great work,

I am. J. G.

[We earnestly hope that the policy suggested by "J. G." will not be followed. The N. W. editors have as good a right to express their opinion on any and every public topic as we have. We exercise that privilege ourselves. No amount of pressure will cause us to swerve from the line we have marked out on this great question; but we shall never be a party to an attempt to put a muzzle on any decent, manly journal. It is the crawling, sneaking, sycophantic journal that has either no opinion or which having one fears to express it that should be shelved. The *Guardian* and *Herald* (barring their propensity to "stretch" in favor of their town) are a credit to the place in which they are published. They may be wrong; but they are bold and aggressive in their error. To be wrong and milk-and-waterish would be unpardonable. Our net loss in subscribers at New Westminster is *twelve*. We could lose 50 more and still have three times as many subscribers left us as the *Standard* has there. We trust that our friends will not throw overboard our Westminster contemporaries. Their efforts to make the best out of a very bad case are pardonable.—ED. COL.]

COWICHAN SELF-STARVING CASE AGAIN.

Notwithstanding what has been said to the contrary, the interests of the public render it necessary to again call attention to this very singular case. It is a certainty that the unfortunate man DENCIDE was not of sound mind for some time previous to his singular death—the mode of death selected by him shows that; and it is more than probable that the hallucination under which he labored dated further back than the deed or will under which he transferred his property. Rumor hath it that the widow of the deceased will soon present her claim, and that a brother is still living. In the interest of all concerned it is hoped that the mysterious surroundings of this case will be thoroughly ventilated.

CROOKEDNESS AT THE TREASURY.

The F. M. Squeezes a Government Agent.

TO THE EDITOR OF THE COLONIST: Sir—Knowing that your columns are at all time open to the public in a right cause I respectfully ask you to insert the enclosed copy of a letter from me to R. Beaven, minister of finance. I have been writing to him for over a year for a settlement and to have the account of taxes collected in this district properly stated in the public accounts, but without effect, and his last letter to me received the day the House opened is so disgusting I am determined not to answer him any more only through the press.

I will vouch and am personally responsible for every word.

Yours, faithfully,
EDWARD ALLEN.

[COPY OF LETTER TO R. BEAVEN.]

GRAVE CREEK, April 17.

SIR:—On the 6th inst. I received through our esteemed government agent, M. O'Connor, Esq., your letter and statement of my account dated March 22, 1880. I look upon them as your masterpieces of impudence, at the same time the most disgraceful documents ever sent from the Treasury during your reign of terror.

I would ask if you thought you were writing to a Siwash, a coward, or both? I will try and teach you that I am neither. It was my intention to only answer you through the press, but for fear of miscarriage I now write you personally.

You will remember that through your contemptible conduct towards me you have forfeited all claim to respect either as a gentleman or a member of the government; therefore I look upon you just as I have found you and shall treat you accordingly. With this introduction I will commence with figures:

I take your own figures from 18th of August, 1876, to 30th August, 1878, and, as you say, I paid into the Treasury $5,821.74; and on the 17th of June 1878 I accounted for $1800 school tax received by me up to date. Now, an honest accountant would make that $7,621.74; but you are kind enough to call it $7,277.17. Is this the way you are keeping the Provincial accounts? If so, the sooner you are out the better. Let us see how much 25 per cent. on $7,621.74 will be. I find it is $1,905.41. Now, up to this date had I ever received from the government one cent for over two years? Did I not pay all my traveling expenses, keep of horse and every other conceivable expenditure? and was I not requested by the late government to retain my commission out of the school tax receipts? and did not the committee on public accounts award me the same, less $26.50? But did you tell the committee what the $26.50 was for? Postage stamps, stationery and advertising in *The Colonist* in accordance with the Act then in force. The receipts for stationery from F. W. Foster and *The Colonist* are in your office; you say they are not, but I know they are. The item of $1800 was accepted and placed to my credit on 17th June by Mr. Berkeley. I saw him do it in the presence of the hon. W. Smithe, the then minister of finance, and the accounts were then taken before the executive council and passed. The account was brought down by the finance minister himself and confirmed. The auditor then found a balance due me of over one hundred dollars, and at the time gave me an order on the sub-treasurer, Mr. Young, for $100 to settle my account up to that date, less a few dollars still due me. How dare you alter the figures from $1800 to $1455.43? Do you suppose the people will think any better of you for this? No, you will find in this district at next election the people will send to the House men who are not afraid to speak and who will not join the Silent Brigade. Now, sir, according to you instructions I sent on January 28th, 1879, a voucher for the above amount. It came back for some slight alteration and was then returned to your office, and now, after 15 months, you think proper to cancel it to me. I shall publish your letter showing your intentions. The voucher from June 30th, 1878, to December 31st, 1878, is strictly as follows:

To cash paid into treasury	$4536.88
To school tax paid in to Mr. O'Connor	1194.00
	$5730.88

Twenty per cent. on that amount is $1146.18. Then how dare you make these figures $907.37? You will keep in mind the fact that I have a receipt for the counterfoils ($3594). Now have I received one cent for those counterfoils only the $100, and the credit for $606 in public accounts for 1876? The next voucher you want me to sign is from January 1st, 1879, to August 27th, 1879. You say, "on cash paid to date $4244.23." Now did I not pay that in as follows:

25th January	$276.97
15th March	816.90
25th May	233.27
30th June	2641.93
19th July	235.86
30th August	39.30
	$4244.23

Now, sir, was there not a letter sent from your office stating that there was $91.26 short of that amount? And as your letter of the 19th November says I subsequently made it good. Does not this show I paid it twice over? Again, does not Mr. J. J. Austin write to me stating it was a mistake made in the office, and that my account was right at first. Again, if I did not pay $87.10 a second time how came you now to offer me $9.71 as 10 per cent. on that amount. Any man but you would be ashamed of such conduct. You well know I signed the voucher under protest, and wrote you on the 9th November requesting you to refund that amount. Your letter when published will show your object. Mr. Austin will, I am sure, bear testimony to this statement. Again, how came you to send me a corrected voucher on June 10th, 1879, and after I had signed and returned it to your office how was it you kept it until the 5th of April, the day the House opened? Why did you not send it before W. M. Brown went below? Were you afraid the people would demand he should have the accounts plainly shown in the public accounts, or was it to injure me? if the latter you will find yourself mistaken.

You say in your letter that the proper way to settle my account would be for me to pay into the treasury the whole amount retained by me for commission and for the government to pay me back. What! trust you with three thousand dollars? Not three cents, if I know myself.

I will never sign your voucher. What is the reason I and B. D. Bullard have not received the amount of the voucher or requisition sent down in July last for the arrest of Scott and Carey under two warrants? And what is the reason you have not refunded the monies paid by both of us for the use of the government? You will never get a man to travel in this district again without cash in hand. I will give you more of this through the Press. I have the authority of B. D. Bullard to use his name with my own.

I have, &c., EDWARD ALLEN.
To R. Beaven, Minister of Finance.

The Coast Line of British Columbia.

ROSEBANK, Victoria, B. C,
7th June, 1880.

TO THE EDITOR OF THE COLONIST:—Sir,—I perceive that though some misapprehension a Toronto paper (as locally quoted) in alluding to my official report for the past year, has made Lieut. Needham, R.N., responsible for certain coast line measurements given by me. As Mr. Needham, who is now absent, might object to this responsibility, and the printed reports have not yet reached the province, I think it well to give you an extract from the press-copy retained by me referring to this subject, by which you will perceive that I alone am responsible for these measurements, and that my only object in introducing Mr. Needham's name was in recognition of that gentleman's friendly co-operation; whose computation, irrespectively of mine, did not substantially differ from it, and gave me confidence in the approximate correctness of my own work.

I am, Sir,
Your obedient servant,
ALEX. C. ANDERSON.

Extract from Fisheries Report, 14th January, 1880, relating to coast line of British Columbia:—

"Par. 41—In my last annual report (par. 15) I casually, and without reflection, alluded to the coast line of British Columbia as extending over '*at least three thousand miles.*' On subsequent consideration, perceiving how I had under-estimated in making this hasty assertion, I proceeded to measure with some accuracy, from charts and surveys in my possession, the continental and insular shore line. At the same time, as a check upon my measurements, I requested Lieut. C. S. Needham, the navigating lieutenant of H.M.S. Rocket, to favor me by making from the Admiralty charts a computation independently of my own. That gentleman kindly undertook the rather wearisome task, and the result of his computation, recently forwarded to me, is confirmatory of my own.

"The result of my own measurements may be thus stated:

East shore of Vancouver Island, from Cape Scott, including islands, etc., in the Gulf of Georgia (statute miles)	678	
West shore, from Cape Scott to Victoria, including inlets, etc	1,045	
Total VANCOUVER ISLAND (English statute miles)		1,723
CONTINENTAL SHORE, including inlets, islands, etc.,—		
From boundary line, lat 49° to lat. 51°, miles	1,899	
From lat. 51° to boundary of Alaska	2,875	
		4,774
QUEEN CHARLOTTE GROUP		684
Total (English statute miles)		7,181

Thus showing an approximate total of seven thousand one hundred and eighty-one statute miles, or more than double the coast line of Great Britain and Ireland.

"Par. 42—In order to convey more vividly a conception of this wondrous coast line, which by a mere glance at the map is not effectively realized, I subjoin in the appendix a detail of the various measurements; and it will be seen that in no other part of the world (the fiords of Norway alone affording on a small scale a feeble point of comparison) does such an extraordinary geographical outline exist," &c., &c.

Pretext or Pretence.

TO THE EDITOR OF THE COLONIST:—Sir—Who paid the piper last fall for a special steamer, swift canoes, and special messengers from Victoria to Yale, and all for *nothing?* Also, who is going to pay the piper for the stranding of the steam launch Victoria off Cadboro Bay? CITIZEN.

Victoria, June 8.

Clearance Sale of Dry Goods.

AT GREATLY REDUCED PRICES we are now disposing of a quantity of assorted Dry Goods, consisting of Ladies' and Misses' Costumes, Dress Materials, Embroidered and Beaded Cashmere Fichus, Black Lace Shawls, Girls' Lt. Cloth Jackets, Boys Linen Suits, Marcella, &c., Pelisses, Corsets, Parasols, Summer Skirts and Skirtings, Light Prints, &c., &c. THOS. WILSON & CO. *

August Flower.

The immense sale and great popularity of Green's August Flower in all towns and villages in the civilized world has caused many imitators to adopt *similar* names, expecting to reap a harvest for themselves at the expense of the afflicted. This Medicine was introduced in 1868, and for the cure of Dyspepsia and Liver Complaint, with their effects, such as sour stomach, costiveness, sick stomach, sick headache, indigestion, palpitation of the heart, vertigo, etc., etc., *it never has failed to our knowledge.* Three doses will relieve any case of dyspepsia. Two million bottles sold last year. Price 75 cents. Samples 10 cents. *

CONTRADICTION.—My attention has been drawn to a notice in *The Colonist* to the effect that S. H. Glover conducted the business of the Commission Store, Johnson street, for 3½ years. S. H. Glover is under a mistake when he makes that assertion. When S. H. Glover came into my employ at the Commission Store, 3½ years ago, he knew no more about the clothing business than an apprentice boy. He had all to learn; therefore he was subject to my orders, and when he departed from that rule he was conducted out of the store on short notice. A. GILMORE. *

JUST RECEIVED.—Messrs. S. Reid & Co. have just received from the East a carefully selected assortment of Men's and Boys' Spring and Summer Clothing which they offer at low prices. An inspection of the goods is invited at their store on Fort street. *

JUST received direct from the manufactory of that celebrated Gun Maker, W. W. Greener, England, Central Fire Hammerless Breech Loading Guns, Rifles, &c. SHORT & SIMPSON.
Gunmakers, Fort street. *

TO MINERS.—Should you be bound for the Skaget mines, if you will call on Fell & Co., Grocers, Fort street, reliable Information will be furnished you as to the best route and the necessary outfits required for your trip.

PARASOLS AND SUNSHADES — 24 dozen just received at the London House, price 50c. to $6 each.

NOTICE.

WHITE HOUSE

COUNTRY ORDER DEPARTMENT.

"MONEY SAVED IS MONEY EARNED."

PEOPLE AT A DISTANCE ARE FINDING OUT that we sell the best goods at the Lowest Price.

By every mail and from all parts of the Province we are in receipt of letters requesting samples and price list of goods. To meet the increasing demand we have established a Country Order Department which will be governed by the following rules:—

1ST—ON APPLICATION, WE WILL FORWARD TO ANY ADDRESS SAMPLES FREE BY MAIL.

2ND—OUR BUSINESS IS DONE STRICTLY FOR CASH, THEREFORE ALL ORDERS MUST BE ACCOMPANIED BY THE CASH TO THE FULL AMOUNT OF BILL, INCLUDING FORWARDING CHARGES.

3RD—MONEY CAN BE SENT BY REGISTERED LETTER, POSTOFFICE ORDER OR IN POSTAGE STAMPS TO THE EXTENT OF FIVE DOLLARS.

Parcels weighing 5 lbs, or under can be sent by Post to any part of the Province for 2 bits per lb., or small packages for 1½ cents per oz.

In ordering, where it is impossible to select from sample, describe as nearly as possible the goods and price. We will then send you the good, and generally a better article than you can buy in this city for the same money.

To our friends, customers and strangers to our House, from Rocky Point to Cariboo, we offer goods as cheap as if they personally purchased them at our counter.

We invite all to the WHITE HOUSE. You will always find a welcome, whether you come to buy or look. Address all Orders to

THE WHITE HOUSE.

Muzzling the Press.

We comment on "J. G.'s" letter elsewhere. Since writing that article we are in receipt of another letter bearing on the same subject, in which the writer breathes hostility to the Westminster press and recommends that they be no longer taken in by Victorians. All this is very amusing. What possible harm or good can a subscriber more or less do a newspaper? Besides, there is a principle involved which we do not propose shall be violated without remonstrance from us. Let us see of what the Westminster papers have been guilty? Of indecency? No. Of libel? No. Of dishonest practices? No. Of what, then, does the complaint against them consist? They have stood up manfully for the interests of their town. And for doing that they are to be muzzled, are they? Stopped, shut up, bankrupted, are they? Wh-a-t! In this country, where freedom of speech and action are guaranteed under the constitution, talk of putting a muzzle on a free press. Go to, go to! man. Get thee to Russia or China.

Yale.

The town continues alive with excitement and business. Grading is being pushed rapidly from Emory to a point a mile above Yale. The road is lined with men blasting and grading. The section is expected to be ready in three months for the rails. Buildings are going up all around but lumber does not come along fast enough. Mr. Onderdonk has a two-story residence in course of construction—the largest in Yale. It will be a handsome structure.

THE "KIRKMAN" PIANO.—The London *Empire* of recent date contains a succinct and interesting account of the invention of the piano and the numerous valuable improvements that have since been effected therein. The honor of invention belongs to one Christofali of Padua, Italy, who in 1711 had made three pianofortes, the first of which there is any record. Jacob Kirkman or Kirckman and John Broadwood were the first English makers. They began the business, first in 1749, and the last in 1751. Kirkman and Broadwood were followed by other makers and England became what it has ever since remained—the recognised home of the pianoforte. The *Empire* proceeds to speak in the highest terms of the quality and finish of the Kirkman instruments of which many are in use in this province. Stahlschmidt & Ward are the agents for the Kirkman in British Columbia and are constantly receiving shipments to meet the growing demand.

DASTARDLY ACT AT OAKLAND, CAL.—The *S. F. Bulletin* records the latest use of dynamite or giant powder, which was applied to a dwelling in the most densely populated part of Oakland. The object evidently was to destroy both the house and its occupants. Two or three similar attempts have been made in San Francisco. There was no loss of life in Oakland. The miscreant had laid the cartridge by the side of the brick foundations concealed in a drab coat such as builders usually wear. He had been prowling around in that vicinity for half an hour or more, and probably had a confederate who kept watch for the police. The broad side of one dwelling was blown out, and the glass in several buildings in the vicinity shattered. Possibly the cartridge was expressly prepared for the diabolical work, or rather it is more than probable that several cartridges were massed in order to make the work of destruction more effective.

BABY LINEN.—Diaper Pinafores, 25c. ea.; Bibs, 3 for 25c. Muslin and Piqué Dresses, a large assortment at the LONDON HOUSE. *

HYPERBOREAN.

Captain Markham's Lecture on the Arctic Regions.

The lecture hall of the Mechanics Institute was filled by a large and fashionable audience last evening, which had gathered to hear a gallant Arctic explorer give an account of the frozen seas. Captain Markham was introduced by Rear Admiral Stirling and proceeded to deliver what proved to be the most interesting lecture on any subject that we have ever listened to. The gallant lecturer has an easy and pleasant manner; his words are well chosen and apposite, and his descriptive powers unsurpassed. The auditor embarked in imagination with the lecturer on one of the two ships that sailed from England in 1875 in search of the North Pole, and was carried to the Arctic Ocean, where he shared in the trials and sufferings of the brave men who raised the Union Jack in the midst of the eternal ice-fields at a point higher than mortal man had ever before reached. He sorrowed with him when his comrades died of exposure and scurvy, and assisted him to hollow out the icy graves; he heard the groaning and crunching of the ship's timbers as the vessel was caught between the ice-floe and the ice-berg; he was with the party throughout the long, dark winter, and returned with it to England the following fall there to receive the warm plaudits of their fellow countrymen. The lecturer was frequently interrupted with applause, and as his voice ceased to re-echo throughout the hall, His Worship Mayor Turner rose and moved a vote of thanks to Capt. Markham for his able effort. His Lordship the Bishop of Columbia seconded and the vote was carried by acclamation. Sir Matthew Baillie Begbie moved a vote of thanks to Admiral Stirling, who presided, and the vote was carried by acclamation. The audience dispersed while the band of the Triumph played the National Anthem. The band played several choice selections during the evening, and a very pretty incident occurred when several bluejackets appeared from behind the scenes and sang some verses which were composed by the chaplain of the expedition and sung by the men at the highest point reached by the sledge-party which Captain Markham commanded. We subjoin a synopsis of the introductory portion of the lecture and hope to give the remainder to-morrow:

As far back as the days of King Arthur, Captain Markham said, may be traced the desire in man of exploring the regions of the North, a fleet having at that early date sailed from England to Iceland. Passing over the vague accounts of an attempt made in King Alfred's reign the lecturer pointed out that towards the end of the 10th century Greenland was discovered. He told how one Eric the Red, an explorer against his will, for he was in banishment, returned from his land of exile with rather glowing accounts of the extensive green pasture lands which he had, seemingly in imagination, observed there, in order that others might be tempted to have practical experience of what he had undergone in that country. Some 400 years before Columbus wanderers from Greenland had evidently discovered the northern extremity of the American continent, for a stone bearing the date 1236 has been discovered of late years as far as the 73d parallel. Nicolas de Lyuna, a friar and Oxford mathematician, was the next to travel far north, but in Henry VIII's. reign, for the first time, an expedition set forth with the express purpose of finding the North Pole. The church was again to the fore, a canon of St. Paul's, London, being in command of the ship "Dominus Vobiscum." Briefly then were sketched the various attempts in the 16th and 17th centuries to make northeast and northwest passages because it had become evident to thinking men what advantages would result from discovering a route which would avoid the tempestuous storms at the Cape of Good Hope. In 1553 Sir Hugh Willoughby attempted what has only been done in the last two years; the result was most disastrous. The commander and crew all died, and when the Russians discovered the ill-fated ships they found the crews, but they were crews of frozen corpses. Not a soul survived to tell the sad tale. It was left to an apathetic Dutchman, one Barents, in 1596, first to stand the cold of an Arctic winter. His house was discovered in 1871 just as represented in a rough drawing made by one of the expedition and everything seeming as if it had only lately been vacated.

Hudson gained the 81st parallel in striving to find the northeast passage, which resulted in the establishment of the lucrative whalefishery. Nor was his northwest expedition less valuable in result, for he made known the existence of the great Hudson river and those extensive regions which bear his name. Lord Mulgrave's expedition was remarked upon by the lecturer as interesting, besides its scientific results in examining the edge of the Polar Ice Pack by having amongst its midshipmen a boy who was one day to be the hero of Trafalgar—Horatio Nelson. Paary's expedition was a failure (because of the time of year) in achieving what at another time he might have accomplished, the large floe of ice on which he was laboriously pushing his way moving more rapidly south than he was progressing north, and yet his latitude was only surpassed by the expedition of 1875. The lecturer then dwelt upon the northwest passages of Franklin, whose story is such a sad one. Nothing was heard of that brave explorer, till MacClintock made all clear, when in one of his search expeditions he proved that both Captain and crew had all perished. This ardent explorer settled, when hunting for Franklin, the only method of attaining a high latitude to be by sledging, and after a voyage of four years passed from the Pacific to the Atlantic, thus establishing the existence of a northwest passage.

The American expedition of 1853 under Dr. Kane, brought back the startling information of the existence of an open Polar sea which subsequent events have proved could only have existed in the capacious imagination of the man who observed it in the distance. Speaking of Hall's expedition of 1871, the lecturer told the touching account of the party who were separated from the ship by the ice breaking up and were carried on towards the south, observing the ice getting smaller and smaller as the floe drifted on. Of this expedition, however, all were ultimately saved but Hall himself, who succumbed to the hardships of the sledging. This brought the lecturer down to 1875 when the British Government determined to equip another Arctic expedition. After the greatest possible care had been taken in selecting the route and choosing the ships and crews on May 29th the Alert (which our early settlers may remember having seen lying in Esquimalt harbor) and the Discovery, under the supreme command of Captain, now Sir Geo., Nares, left Portsmouth harbour for their perilous voyage.

Supreme Court.

[Before Chief Justice Sir Matthew Baillie Begbie, Mr. Justice Crease and Mr. Justice Gray.]

TUESDAY, June 8.

Regina *vs.* the McLeans and Hare—Argument resumed at 11.30, a.m.

Mr. McCreight said that he would open with a few remarks on the question as to whether a Lieut. Governor has any power to issue commissions. He contended that he has none whatever and in support of his contention referred to the British North America Act, sections 12 and 65, and section 10 of the Terms of Union. He would assume that all statutory powers formerly enjoyed by Governors are now vested in the Lieut. Governor of the Province.

The Chief Justice said that it would be most fatal to the learned counsel's case if he proved that the Lieut. Governor has no power to issue commissions, because in that event the commission of November last under which the trial of the prisoners is alleged to have taken place would then become invalid and the trials, consequently, a nullity.

Mr. McCreight said he intended to submit that (1) the Lieut. Governor's commission is unnecessary and useless; (2) the Governor General's commission is unnecessary; and (3) that the necessary power is found in 37 Vict., chap. 42, sec. 5, which says that the Supreme Court shall have power to hear, try and determine in due course of law all treasons, felonies and indictable offences committed within the Province. He did not think that in the absence of a decision from the Court any member of the profession would hold that the Lieut. Governor has any power to issue a commission, and it was of the greatest importance at the present juncture that the opinion of the Court as to the value of a commission so issued should be ascertained. He then proceeded to show what the Lieut. Governor's powers are and submitted that, by statute at least, he has no power to issue commissions; also, that he has no prerogative powers.

Mr. Justice Gray—I remember the Texada and Kootenay commissions. They exercised extraordinary powers, but were appointed by the Government notwithstanding the Government had no right whatever to issue commissions.

Mr. McCreight, continuing, said that he would subsequently submit that there would be very great difficulty in holding courts of *oyer* and *terminer* in the Province inasmuch as it is not divided into counties. For the present he would contend that the commissions issued by the Lieut. Governor had been issued without proper power and were invalid. Indeed, it had been shown by the affidavit of the Provincial Secretary that no less than 96 assizes had been held in the Province without any commission at all.

The Chief Justice—What! The statement is utterly untrue.

Mr. McCreight—Well, I will concede for the sake of argument that the statement is incorrect, but I must ask to be allowed to proceed with my argument without interruption. Pray let's have no angry words, or we shall not get on.

The Chief Justice—I have a right to be angry, sir. There is not one word of truth in the assertion you have made.

Mr. McCreight (taking his seat)—I will sit down until you have finished.

The Chief Justice—Your language casts an imputation on the judges and the statement you have just made you must have known to be untrue.

Mr. McCreight (rising rapidly)—I deny——

The Chief Justice—You have sat down sir, and you *shall* sit down. I will hear Mr. Robertson.

Mr. McCreight—In accusing me of wilfully making a false statement you have said what is quite untrue and you had no right to make such an assertion.

The Chief Justice—Take your seat, sir. I will not hear you further.

Mr. McCreight (warmly)—Indeed I shall not——

The Chief Justice—You must apologize before I hear you again; (rising) the Court is adjourned until 11 o'clock to-morrow.

Mr. McCreight—I will apologize only so far as to say that your statement was incorrect instead of being untrue.

The Chief Justice—I shall not hear you. The Court is adjourned until to-morrow, when Mr. Robertson will proceed.

The Registrar—The Court stands adjourned until 11 o'clock to-morrow morning.

East Lynne.

An excellent representation of this emotional play was given at Theatre Royal by the Star Dramatic Company, who have just returned from the Mainland, where they have fulfilled a brief but successful engagement. The leading characters were all well sustained, Miss Lottie Wade assuming the part of Barbara Hare in a faultless manner, Miss Adams appearing to great advantage as Lady Isabel and Messrs. Lindsay and Allan representing the characters of Archibald Carlyle and Sir Francis Levison respectively. Mr. P. J. Wade was particularly successful in the dual part of Lord Mount Severn and Richard Hare and Mrs. Douglass gave an admirable impersonation of Miss Cornelia. The company will make their farewell appearance to-night when a dramatization of the French play "A Woman of the People" will be presented for the first time in this city.

Through to Skaget.

Mr. Frank S. Barnard, jr., has opened a fast means of communication with the Skaget mines *via* Hope, B.C. Trains will run regularly, carrying miners, outfits and freights. Forty animals will leave Hope on the 18th inst. Supplies may be had at reasonable rates at Hope. This stroke of enterprise opens the only practicable route for miners' supplies into the diggings.

A. O. U. W.—On an invitation extended by the Seattle members of this order the lodge in this city has decided to charter a steamer and visit Seattle on July 4th. Arrangements will be perfected in the course of a few days, and every facility and inducement will be afforded Victorians to pay a pleasant visit to their "cousins across the water" and participate in the national celebration.

AQUATIC.—A sailing match took place at Esquimalt on Monday evening last between Mr. J. T. Howard's "Nellie" and Mr. J. Baker's "Phosporus" over a three-mile course, the former boat winning by two lengths. Another race between the same boats for $50 aside is amongst the probabilities on Coronation Day.

THE fire department will hold their annual pic-nic on July 1st at the Caledonia ground.

POLICE COURT.—At this Court yesterday a d. and d. who failed to answer to his name was fined the usual sum.

Fatal Accident at Sooke.

On Monday afternoon at about 4 o'clock an accident attended by fatal results occurred at Muir Bros'. logging camp, Sooke. It appears that Peter Sangster, a hand employed about the camp, was barking a tree whilst another employé was felling one. The chopper seeing that Sangster was in peril from the falling tree called to him to come back and jumped from his board, being under the impression that the tree was not going down quick enough. Sangster heeded the admonition and came back, but as the tree was falling the chopper, before he could regain his board, discerned to his horror that the unfortunate man was running directly into danger. Another employé called out to Sangster, "For God's sake stop," but Sangster, apparently realizing his fate, threw up his hands and the tree came crashing down on a smaller one, which struck him on the head and caused instantaneous death. The deceased was a native of Aberdeen, between 40 and 45 years of age, and was formerly a Cariboo miner. The body was conveyed yesterday morning to Muir Bros'. mills, in the vicinity of which it will be interred.

THE SUNDAY BYLAW.—A number of cases in which the defendants are charged with violating the Sunday Bylaw will come up for hearing before the Police Magistrate this morning.

DRESS GOODS.—All the new materials in every shade at the LONDON HOUSE. *

BY ELECTRIC TELEGRAPH.

EXCLUSIVELY TO THE COLONIST, THE ONLY NEWSPAPER PUBLISHED IN BRITISH COLUMBIA THAT RECEIVES TELEGRAPHIC DISPATCHES.

Evening Dispatch.

UNITED STATES.

CHICAGO, June 8.—The thirty-sixth ballot resulted as follows:

Grant	311
Garfield	399
Blaine	42

Garfield is nominated.

CHICAGO, June 6.—Prince Leopold and Princess Louise and suite arrived from Milwaukie to-day and will remain here several days.

NEW YORK, June 7.—Requiem mass for the repose of the soul of the late Empress of Russia opened at the Greek Russian chapel to-day.

NEW YORK, June 7.—Quite a riot occurred among the Chinese yesterday at their quarters in Mott street. Over a hundred of them got into a fight at their club-room while celebrating a Chinese holiday. Pistols and knives were drawn. The police appearing the Chinese attacked them, but none seriously hurt. The Chinese are very reticent about the affair. The street last night was filled with spectators and special police were detailed to keep the street clear.

FRANCE.

LYONS, June 6.—The second ballot for member of the Chamber of Deputies resulted: Bullon, 820; Blanqui, 594.

PARIS, June 7.—The race for the grand prize at Chantilly to-day was won by Robert the Devil; Destinar 2nd; Milany 3rd; Beaumond 4th. They were 13 starters.

ENGLAND.

LONDON, June 7.—Irish residents here gave an enthusiastic reception to Parnell in St. James' Hall.

GERMANY.

BERLIN, June 7.—Bismarck in an interview said that he would have resigned the chancellorship after the late defeats but for the personal desire of the Emperor, and that henceforth he would leave parliamentary fighting to others and devote himself entirely to the foreign affairs of the empire.

CALIFORNIA.

SAN FRANCISCO, June 7.—In case of I. M. Kalloch, for the murder of Chas. DeYoung, defendant, by consent of all parties, was allowed till Saturday by Judge Powers to plead and make any motion or demand for information that his counsel may desire.

DELAYED DISPATCHES.

CENTRAL AMERICA.

Admiral Ammen has a dispatch from Engineer Menocal stating that the Nicaraguan congress has confirmed the concession recently made by the President of that republic to the American company for the construction of an interoceanic ship canal across the Isthmus.

CANADA.

MONTREAL, June 5.—It is rumored that a Cuban fillibustering expedition composed of Americans left this port on board a steamer yesterday with a cargo said to be composed of 150,000 cartridges and a large number of firearms.

BERLIN, June 5—The resignation of Prince Bismarck on the new appeal to the country can be looked forward to with something like certainty.

PARIS, June 5.—Myer, editor of the *Gaulois*, has challenged Rochefort. Rochefort's wound is not dangerous.

CABUL, June 5.—A Russian agent is with Abdurrahman Khan.

BERLIN, June 5.—The emperor has formally announced the betrothal of his grandson, Prince William of Prussia, to Princess Augusta Victoria, of Schleisweig Holstein.

A statue of Goethe was unveiled yesterday in the presence of the Emperor and a large concourse of people.

PARIS, June 5—The duel between Rochefort and Keochlin only occupied two minutes. Rochefort's sword, while parrying thrusts, slipped from his gloved hand and Keochlin's sword entered the lower part of Rochefort's chest below the sternum and false ribs.

RHUBARB FOR PRESERVING.—Grown on good sweet soil at 2 cents per pound at Shore & Co's., corner of Douglas and Pandora streets. *

Customs Blanks for Duty, Warehouse, ex-Warehouse, etc., in full supply at *The Colonist* office, adjoining Postoffice. *

THE PASSION PLAY.

A Solemn Dramatic Representation of the Saviour's Death.

LONDON, May 17.—An Ober Ammergau correspondent telegraphs this evening: The first performance of the passion play was given to-day before an audience numbering upward of 8000 persons. So great was the rush to see it that the accommodation was entirely insufficient, and numbers of people were unable to obtain admission. Another performance will be given to-morrow. The weather was fine but slightly cloudy. Visitors from nearly all parts of the world were present. Last evening the most exciting struggles took place around various ticket booths to secure seats. The scene in the little village was exceedingly animated, the inhabitants having done all in their power to make it as attractive as possible; what with the firing of cannon and the parading of bands of music through the streets the picture presented was a fairly brilliant one. There is only one blot, namely, the disgraceful disfigurement of the chief house, in the scenery of the play by colossal placards of an English firm of tourists' agents. The behaviour of the audience during the performance was admirable from first to last. As the different tableaux were presented, the most intense feelings of devotion and reverence were exhibited. The scenery is perfect, but the costumes are poor. The part of the Saviour was exceptionally well played, very little can be said in praise of the actresses. Their parts were given in a most indifferent manner. Two attempts at applause were made, but the demonstration was promptly suppressed. Geistlericher Rath Daisenberger, the priest dramatist, sat on the front row nearest the stage. The performance commenced at 8 o'clock in the morning and finished at 5 in the evening. Shortly after the commencement of the second part in the afternoon a terrific thunderstorm burst over the village, rain fell at intervals, but the actors bravely held out, and there was no interruption except for a brief period of ten minutes. In the scene where the Saviour is represented carrying the cross, the spectacular effect was very fine. The procession was specially magnificent, owing to the introduction of new and correct costumes, and in the uniforming of the Roman soldiers. In the part of Judas Iscariot the acting was very fine, but some laughter was caused by the accidental breaking of a limb when he was about to hang himself. The most impressive and terribly realistic scene of all, however, was the crucifixion, which caused a most painful and profound impression through the entire audience. The interest in the play was maintained to the very end, scarcely one of the vast number present having moved from his seat until the performance closed. Altogether the performance is far more perfectly mounted than at any time in the past. The villagers, however, are becoming spoiled by the commercial spirit, and have lost a good deal of their old-time simplicity.

English Mail.

[Per steamer Geo. E. Starr.]

The majority of the House, including all parties, is decidedly disgusted with Mr. Bradlaugh's conduct. After making loud boasts of his conscientious scruples about taking the oath he is now, finding himself in danger of being excluded, very ready to swallow scruples and oath to save himself.

If the revelations of Don Carlos' ex-*aide-de-camp* Gen. Bouet, which *Le Voltaire* publishes, are trustworthy, Spain may rejoice at having escaped the clutches of the Bourbon pretender. While plundering and warring in the Basque mountains Don Carlos, it seems, made a pet of a tame, toothless wolf, and amused himself by setting the brute upon terrified peasants and village girls. On one occasion, it appears, he went further than this. The wolf was suddenly led into a room where a banquet was being given, when the beast bounded on the table and devoured everything that was on it. Several ladies fainted, and, of course, there was a general stampede from the hall.

Vanity Fair hints that Lord Beaconsfield contemplates matrimony.

A rabid and unmeasured attack on Gambetta by a clever Radical, who writes under the signature of "Diogene," appears in to-day's *Mot d'Ordre.* After denouncing him as the successor to the seat, the bed and the crimes of DeMorny, and as an alien like his confederate criminal Napoleon Third, "Diogene" warns the President of the Chamber that his lease of tyranny has nearly expired, and concludes by amicably inviting him to hang himself on the olive tree of Judas.

Montreal Heard From.

MONTREAL, September 27, 1979.

MESSRS. H. H. WARNER & CO.—DEAR SIRS;—I was afflicted for many years with terrible suffering which arises from dyspepsia. My physicians gave me no relief and much against my will I was induced to give your Safe Bitters a trial. It gives me great pleasure to inform you that my health is completely restored, though I have but taken four bottles; my appetite is good and I now suffer no inconvenience after eating hearty meals, while before nearly everything I ate caused me great distress and uneasiness. I can cheerfully recommend your Bitters to all.

* R. L. MOSLEY.

By Universal Accord,

AYER'S CATHARTIC PILLS are the best of all purgatives for family use. They are the product of long, laborious and successful chemical investigation, and their extensive use by physicians in their practice and by all civilized nations proves them the best and most effectual purgative pill that medical science can devise. Being purely vegetable, no harm can arise from their use. In intrinsic value and curative powers no other Pills can be compared with them, and every person knowing their virtues will employ them when needed. They keep the system in perfect order and maintain in healthy action the whole machinery of life. Mild, searching and effectual, they are specially adapted to the needs of the digestive apparatus, derangements of which they prevent and cure, if timely taken. They are the best and safest physic to employ for children and weakened constitutions, where a mild but effectual cathartic is required. For sale by all dealers. 4dw

From a Well Known Physician.

ROCHESTER, N. Y., October 5th, 1879.

H. H. WARNER & CO.—GENTLEMEN.—Without solicitation I desire to express to you my high appreciation of your remedy, known as Warner's Safe Kidney and Liver Cure. Some time since my attention was called to a gentleman who had for a long time been a great sufferer. After making a thorough examination of the case I found that his kidneys and liver were badly affected. Not without hesitation I prescribed your Safe Kidney and Liver Cure. The result, after taking two bottles, has been satisfactory in the extreme. Without hesitation, I would now subscribe the same remedy to ail similarly afflicted. Yours truly,

R. CAULNINS, M. D.

The above you are at liberty to publish if you choose. *

Holiday Presents.

Make your wife a present of a cooking stove or range manufactured at the Albion Iron Works, and you are bound to have a Christmas and New Year's dinner worth eating.

They are the pride of every household and when you go home to your meals, your wife will meet you with a smile and a well-cooked meal.

These are the only stoves that contribute to domestic happiness.

Testimonials without number.

Call and examine for yourself at the manufactory on Store, Chatham and Discovery streets. *

ELECTRICITY! THOMAS' EXCELSIOR ECLECTRIC OIL! WORTH TEN TIMES ITS WEIGHT IN GOLD—Pain cannot stay where it is used. It is the cheapest medicine ever made. One dose cures common sore throat. One bottle has cured bronchitis. Fifty cents' worth has cured an old standing cough. It positively cures catarrh, asthma and croup. Fifty cents' worth has cured crick in the back, and the same quantity cured lame back of eight years' standing. The following are extracts from a few of the many letters that have been received from different parts of Canada, which, we think, should be sufficient to satisfy the most sceptical: J. Collard, of Sparta, Ont., writes, "send me 6 dozen Dr. Thomas' Eclectric Oil, have sold all I had from you, and want more now, its cures are truly wonderful." Wm. McGuire, of Franklyn, writes, "I have sold all the agent left, it acts like a charm—It was slow at first, but takes splendidly now." H. Cole, of Iona, writes, "Please forward 6 dozen Thomas' Eclectric Oil, I am nearly out, nothing equals it. It is highly recommended by those who have used it." J. Bepford, Thamesville, writes, "Send at once a further supply of Eclectric Oil, I have only one bottle left. I never saw anything sell so well and give such general satisfaction." J. Thompson, Woodford, writes, "Send me some more Eclectric Oil. I have sold entirely out. Nothing takes like it." Miller & Reid, Ulverton, P. Q., writes, "The Eclectric Oil is getting a great reputation here, and is daily called for. Send us a further supply without delay."

BEWARE OF IMITATIONS.—Ask for Dr. Thomas' Eclectric Oil. See that the signature of *S. N. Thomas* is on the wrapper, and the names of Northrop & Lyman are blown in the bottle, and *Take no other.* Sold by all medicine dealers. Price 25 cents. NORTHROP & LYMAN, Toronto, Ont., Proprietors for the Dominion.

NOTE.—*Eclectric*—Selected and Electrized.

THOS. SHOTBOLT, Chemist, etc., Johnson street Victoria, agent for the Province of British Columbia.

SAMPLE STORE.—Special Agency and Commission business. For cheap CLOTHING and FURNISHING Goods as good value for your money as it is possible for any one in this city to give call on S. H. GLOVER, Bossi's Building, Johnson street, opposite Oriental alley. Having conducted for the last 3½ years the business of the "Commission Store" I am acquainted with the requirements of the public and am enabled to offer them GREAT INDUCEMENTS to purchase. I hope to see my old friends and customers at my new location. Will soon begin the manufacture of clothing to order. *

MESSRS. BAGNALL & Co. have made an extensive addition to their music establishment in order to make room for a large importation of Pianos, Organs, Violins and other Musical Instruments. This well-known emporium will now be replete with all that can be desired in the musical line. Grand, Square and Upright Pianos from London, Paris, Dresden and New York (about thirty to select from.) Organs from thirty-five dollars; Pianos sold on the instalment plan; also, for hire or exchange. On hand, a large stock of Pictures. Picture Frames made to order, cheap. *

WILLARD'S NOVELTY.—A man decapitated in broad daylight in full view of the audience! Cabinet of Ghosts! Ventriloquism! Magic! Royal English Punch and Judy! Startling sensations! Fire King and Sword Swallower late of Woodward's Garden! Will exhibit for a few days in the tent rear of Oddfellows Hall, Douglas street, commencing Thursday evening, at 8 o'clock; doors open at 7. Good seats; admission 50 cents; children half-price; reserved seats 75 cents. *

DENTAL.—Mr. R. B. Thompson, Dentist, having removed to his new rooms in Masonic Building, Government street, immediately over T. Wilson & Co.'s dry goods store, is now prepared to attend to his patients there. *

MUNICIPAL.

PROPOSED LOAN FOR WATER WORKS PURPOSES.

THE MAYOR AND COUNCIL BEG to place before the Ratepayers the scheme of the Water Works Engineer for putting the City Water Works in a complete condition.

To carry out the work a loan of $70,000 is necessary, and the following particulars place the matter as clearly as possible before the Ratepayers for their judgment thereon. Should the loan be effected and the work carried out the increase in water rents resulting therefrom will be about 20 per cent. This increase within two years will be ample to meet the amount annually required for interest and sinking fund of the loan. The Water Works at present are heavily indebted to the City for amounts taken from general revenue for reconstruction of the head works. This expenditure was necessary in order to continue the present supply of water and to prevent the entire destruction of the previously constructed works at Beaver Lake. The said expenditure has absorbed nearly the whole of the surplus revenue of the City for the current year, and should it not be repaid by means of a loan further works on streets will be impossible without increased taxation. The loan of $70,000 is intended to carry out the scheme of the Water Works Engineer and to repay to the general revenue for public works the amount already expended at the dam and elsewhere, which is nearly $15,000.

The Ratepayers are referred to the Engineer's report published in *The Colonist* on March 28th and to the following scheme.

CITY HALL, 22nd March, 1880.

To His Worship the Mayor
and Municipal Council.

GENTLEMEN,—In compliance with the resolutions requesting me to draught a scheme for the extension of mains and a better supply of water for the high levels of the City, I have the honor to report that after taking into consideration the probable large increase of population, and to guard against the necessity of being compelled to enlarge the main conduit pipe for many years,

I would suggest that it will be necessary to adopt the principle of a high and low service reservoir as I find that the high service reservoir to be effective must be constructed at an elevation above the level of the water in Elk Lake, and in order to obtain the delivery of the greatest quantity of water in the City and to effectively supply the high levels I would suggest that the 11 inch main be extended from Douglas street along Pandora street, say to the neighborhood of the Royal Hospital, as that would give an elevation of 135 feet above high water mark sufficiently high to supply all the thickly populated parts of the City.

A reservoir built at the point suggested would have the following advantages: The level of the water in the reservoir would be 58 feet below the level of the water in Elk Lake, and 48 feet will be available for the delivery of water from the above source which will give a theoretical delivery of 37,000 gallons per hour; running continually will give a supply sufficient for a population of 30,000 inhabitants allowing 25 gallons per head per day and by discharging 37,000 gallons per hour 10 feet above the level of the water in Reservoir and by causing it to pass through a hydraulic engine it will develop sufficient power to raise 3,000 gallons per hour through a 6 inch pipe into the high service reservoir which may be built on the high rock at the top of Fort street, at an elevation of 200 feet above high water mark, or 8 feet above the level of the water in Elk Lake, and that quantity would be sufficient for a population of 3,000 inhabitants. It is intended that there will be no connection between the service pipes of high and low service reservoirs except in case of fire. As to size of reservoirs required, I would suggest that the low service reservoir be built to hold 1,500,000 gallons, or, say, 140 feet square and 12 feet deep, and the high service one to hold 60,000 gallons, or, say, 30 feet square and 12 feet deep; and while selecting the best plan for the construction of said reservoirs I may add that in all well regulated cities it is an established principle that in building reservoirs to contain water for domestic use they should be built so as to be able to contain the greatest quantity of water in the smallest possible area and covered so as to exclude the light, as light is very injurious to water stored in a reservoir and intended for domestic use; and to carry out that principle I propose to build the reservoirs by blasting out 4 feet of the rock and using the rock provided by that means for building the balance of the wall, which would be 8 feet high, and that will make the reservoir 12 feet deep, the roof to be supported by cast iron columns. The cost of carrying out and completing the above scheme will not exceed $50,000, to which must be added $10,000 which will be required to complete the filter beds; but should you see fit to adopt the proposed scheme I am prepared to furnish you detailed plans and specifications for the same.

In conclusion I may add that I am aware that it is generally accepted as a fact that there is a natural reservoir at the head of Fort street and that there is nothing to do but to turn the water into it; but I find that to attempt to carry the water to one common reservoir that would partially supply the high levels the difference between the level of the water in reservoir and. evel of water in Elk Lake is so small, being only 25 feet, the difference in the quantity of water delivered in the city by comparison would be to one common reservoir at the high level, *but not sufficiently high to be effective for all the buildings*, and from a head of 25 feet the main conduit pipe will deliver 23,000 gallons per hour, and by the proposed scheme from a head of 48 feet the main conduit pipe will deliver 37,000 per hour, 3,000 o which will be effective for the highes buildings on the high levels, while the r would also be a saving in pipe as well a a more effective pressure on the city ma in in case of fire. I am aware that Gold stream has still some advocates who believe that the supply should have been obtained from that source; but without stopping to discuss that point I may say that, from whatever source the supply is obtained, the proposed scheme is equally required by all.

Respectfully submitted.
(Signed) ALEX. HENDRY,
Supt. and Engineer.

A BYLAW

To enable the Corporation of the City of Victoria to raise the sum of ($70,000) Seventy Thousand Dollars for the purposes therein set forth.

WHEREAS THE MUNICIPAL COUNCIL of the Corporation of the City of Victoria has resolved to raise the sum of Seventy Thousand Dollars to pay off certain debts due in respect of the Water Works of the said City and to extend the said Water Works system into the suburbs of the said City.

And whereas it will require the sum of Six Thousand Three Hundred and Forty Dollars to be raised annually by special rate for the payment of the said debt and interest, as is hereinafter mentioned.

And whereas the amount of the whole rateable property of the said Corporation of the City of Victoria according to the last revised Assessment Roll being for the year 1879 was $2,655,820, irrespective of any future increase of the rateable property of the Municipality and of any income in the nature of tolls, interest or dividends from the work, and also irrespective of any income from the temporary investments of the sinking fund or of any part thereof.

And whereas for paying the interest and creating a yearly sinking fund for paying the said principal of $70,000 and interest as hereinafter mentioned, it will require an equal annual special rate of one-fourth of one per cent, on the dollar.

BE IT THEREFORE ENACTED by the Mayor and Council of the Corporation of the City of Victoria:

1. That it shall be lawful for the Mayor of the City to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same upon the credit of the debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of $70,000, and cause the same to be paid into the hands of the Treasurer of the said Corporation for the purpose and with the object above recited.

2. That it shall be lawful for the said Mayor to cause any number of debentures to be made for such sums of money as may be required not less than $100 each, and that the said debentures shall be sealed with the seal of the said Corporation of the City of Victoria and be signed by the said Mayor.

3. That the said debentures shall be made payable in twenty-five years at the farthest from the day hereinafter mentioned for this Bylaw to take effect at the office of the Treasurer of the Corporation of the said City of Victoria, and shall have attached to them coupons for the payment of the interest.

4. That the said debentures shall bear interest at and after the rate of Seven per cent. per annum from the date thereof, which interest shall be payable half-yearly at the office of the Treasurer of the Municipality.

5. That for the purpose of forming a sinking fund for the payment of the said debentures and the interest at the rate aforesaid to become due thereon, an equal special rate of one-fourth of one per cent. on the dollar shall, in addition to all other rates, be raised, levied and collected in each year upon all rateable property in the said Municipality during the continuance of the said debentures or any of them.

6. Clause two of the "Victoria Revenue Bylaw, 1875," as amended by the "Water Works Debenture and Revenue Bylaw Amendment Bylaw, 1877," and further amended by "The Bylaw to Authorize the Raising of Twenty Thousand Dollars, 1878," is hereby further amended by striking out the words "eight-tenths" and substituting the words "eleven-twentieths."

7. It shall be lawful for the said Municipal Council from time to time to purchase any of the said debentures, and such debentures shall be so expressed as to entitle the said Council to redeem and purchase the same on paying the amount thereof and interest due thereon to the date of such purchase to the holders thereof, and all debentures so repurchased shall be forthwith cancelled and destroyed, and no re-issue of debentures shall be made in consequence of such repurchase.

8. That this Bylaw shall take effect and come into operation upon the 1st day of July, A. D. 1880.

9. This Bylaw may be cited for all purposes as "The Bylaw to Authorize the Raising of Seventy Thousand Dollars, 1880."

Passed the Municipal Council this Nineteenth day of May, A. D. 1880.

{ L.S. }
J. H. TURNER,
MAYOR.
WM. LEIGH, C.M.C. my23

DYSENTERY, CHOLERA FEVER, AGUE, COUGHS, COLDS.

DR. J. COLLIS BROWNE'S
(Ex Army Medical Staff.)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—See *Times*, July, 12, 1864.

The Public, therefore, are cautioned against using any other than

DR. J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—diphtheria, fever, croup, ague.

CHLORODYNE acts like a charm in diarrhœa and is the only specific in cholera and dysentery.

CHLORODYNE effectually cuts short all attacks of epilepsy, hysteria, palpitations and spasms.

CHLORODYNE is the only palliative in neuralgia, rheumatism, gout, cancer, toothache, meningitis, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Chol ra was CHLORODYNE. *See Lancet*, Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay.—"CHLORODYNE is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports [December, 1865] that in nearly every case of Cholera in which Dr. J. COLLIS BROWNE'S CHLORODYNE was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera.—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

See leading article, *Pharmaceutical Journal*, Aug. 1, 1869, which states that Dr. J. Collis Browne was the inventor of Chlorodyne; that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the words "Dr J. COLLIS BROWNE" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Sole Manufacturer, J. T. DAVENPORT, 33, Great Russell Street, Bloomsbury, London.

Sold in bottles at 1s. 1½d., 2s. 9., 4s 6d. and 11s. fe3wly

MEDICAL

DR. SPINNEY & CO'S DISPENSARY,

No. 11 KEARNEY STREET, SAN FRANCISCO.

DR. SPINNEY, well known as the founder of the Montreal (C. E.) Medical Institute, and late Proprietor of the SPINNEYVILLE INFIRMARY would most respectfully inform his patients and the afflicted generally, that he still continues to treat chronic and nervous diseases with unparalleled success.

LADIES AND GENTLEMEN,

Remember that procrastination is the thief of time so

COME AND BE HEALED!

It matters not what you troubles may be, come and let the Doctor examine your case. It will cost you nothing for consultation, so please call and satisfy yourselves whether the Doctor understands your case. If he can cure you he will tell you so; if not, he will tell you that, for he will not undertake a case unless he is confident of effecting a cure.

Parties at a distance wishing treatment, by sending $25 and a minute description of their troubles will receive in return a full course of treatment securely packed so as not to excite curiosity.

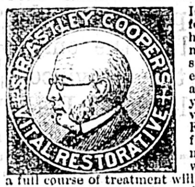
DR. SPINNEY will guarantee to forfeit Five Hundred Dollars for every case of any kind or character which he undertakes and fails to cure.

P. S.—For diseases of short standing a full course of medicines, sufficient for a cure, with all instructions, will be sent to any address on receipt of $10.00

Call or Address

DR. SPINNEY & CO.,
se2dwly No. 11 Kearney St., San Francisco

THE GREAT ENGLISH REMEDY.



Is a never-failing Cure for Nervous Debility, Exhausted Vitality, Weakness of any kind, Paralysis, and all the terrible effects of youthful follies and excesses in maturer years. Those who cannot visit DR. MINTIE in San Francisco should send full and minute statement of their troubles with $25, and in return a full course of treatment will be forwarded securely packed so as not to excite curiosity.

DR. MINTIE will agree to forfeit **FIVE HUNDRED DOLLARS** for a case of this kind the **VITAL RESTORATIVE** (under his special advice and treatment) will not cure, or for anything impure or injurious found in it. **DR. MINTIE** treats all Diseases successfully without mercury. **CONSULTATION FREE.** Thorough examination and advice $5 00. Price of **VITAL RESTORATIVE**, $3 00 a bottle, or four times the quantity, $10; sent to any address upon receipt of price, or C.O.D., secure from observation, and in private name if desired, by **A.
